Proposal

1. Overview

NAME: Tasty Bites

Brief History:

Tasty Bites is a delicious hot dog restaurant established in 2026. It focuses on providing quick, affordable delicious meals for customers. The business started as a small takeaway outlet and now has become popular among students and working individuals due to quality food and best service. What started as a passion project at a local weekend market has grown into a beloved hotdog destination with two thriving locations.

The founder believed that fast food doesn't have to mean low quality. Every Tasty Bites hotdog is handcrafted with care, using locally sourced ingredients, and served with genuine warmth.

Mission:

To provide high-quality, affordable street food that brings the community together. To serve the most flavourful, high-quality hotdogs using sustainably sourced ingredients while creating a welcoming space for families, friends, and food lovers.

Vision:

To become the most recognized hot dog brand in the region known for flavour and quality. Also be South Africa's leading gourmet hotdog brand, recognised for exceptional taste, community engagement, and sustainable practices.

Target Audience:

- Students
- Working professionals
- Families
- People looking for quick and affordable meals

2. Website Goals and Objectives

The main goal of the Tasty Bites website is to create an online presence and make it easier for customers to access menu information and place enquiries.

Specific Goals:

- Display menu items online
- Attract more clients
- Provide contact and location information
- Allow online enquiries or orders
- Provide essential location and contact information to drive foot traffic.

Key Performance Indicators (KPIs):

- Website traffic
- Customer enquiries
- Menu page views
- Increase in store visits
- Number of menu downloads or clicks on the "Menu" page.

3. Current Website Analysis

Tasty Bites currently does not have sponsorship on big websites and relies on small liable customers and social media posts.

Strengths:

- Strong local customer base
- Affordable pricing
- Good reputation

Weaknesses:

- Small reliable online presence
- Limited accessibility of menu

Areas for Improvement:

Creating a professional website

- Improve an online menu
- Improve customer communication and concerns

4. Proposed Website Features and Functionality

Essential Features:

Homepage (index.html): Welcome message, featuring a Hero section with a high-resolution image of the signature Tasty Bite hotdog, a brief brand introduction, and a primary call-to-action (CTA) button leading to the menu.

About Us (about.html): Detailed history of the brand, our commitment to local ingredients, and an introduction to the founding team.

Menu Page(menu.html): A visually rich catalog of our hotdog varieties, including descriptions of unique toppings and side dishes.

Enquiry Page (enquiry.html): A professional form for users to request catering services or private event bookings.

Contact Page (contact.html): Includes a Google Maps integration showing our primary locations, contact phone numbers, and a general message form

Additional Features:

- Mobile-friendly design
- Simple navigation
- Call-to-action buttons (Order Now)

5. Design and User Experience

Design Aesthetic:

Bright, attractive, and visually appealing with food imagery. A vibrant street-food theme using high-contrast elements and bold imagery to evoke an appetizing and modern atmosphere.

Color Scheme:

Red, yellow, and white

- with Charcoal Grey for text readability.

Typography:

Bold and readable fonts

- Bold sans-serif headings (Montserrat) for impact and clean, highly readable body text (Aptos) for descriptions.

Layout:

- Clean layout with large food images

- Easy navigation

User Experience Considerations:

- Fast loading pages

- Easy access to menu

- Clear contact details

User Experience: Priority is placed on mobile-first design, ensuring the menu is easily readable on smartphones. A fixed navigation bar will allow users to jump between pages instantly.

Low-Fidelity Wireframe Descriptions

Homepage Wireframe:

Header: Logo on the left, horizontal navigation links on the right.

Hero Section: A full-width placeholder for a high-quality image with centered text and a "View Our Menu" button.

Introduction: A three-column layout briefly highlighting "Fresh Ingredients," "Unique Flavors," and "Local Roots."

Footer: Social media icons and copyright information.

Products Page Wireframe:

Grid Layout: A 3x2 grid of product cards. Each card contains a square image placeholder, a bold title, a short description, and a price tag.

Enquiry Page Wireframe:

Form Layout: A single-column vertical form with input fields for Name, Email, Event Date, and a text area for "Special Requirements."

6. Technical Requirements

HTML5

CSS3

JavaScript

Domain and hosting

Development Tools: Visual Studio Code for coding and GitHub for version control and hosting.

7. Timeline and Milestones

Week 1: Finalize project proposal and gain lecturer approval.

Week 2: Gather assets (photos of hotdogs, logo) and create wireframes.

Week 3: Develop the HTML structure for all 5 pages.

Week 4: Initial CSS styling and content integration.

Week 5: Testing, debugging, and final push to GitHub.

8. Budget

Domain: R750/year

Hosting: R4000 /month

Professional Photography: Estimated R1,500.00 for a local food photographer.

Development: Self-developed

Development: Self-developed

Marketing: Variable on hierarchy
